

ADVERTISER PARTNERSHIP PROPOSAL

Financial Concepts

Your billboards own the Golden Triangle's highways.

**Let's put your name in every waiting room, lobby, and showroom too – and
make Financial Concepts impossible to ignore.**

Thirty-five years of trust, earned in Columbus.

Financial Concepts is one of the Golden Triangle's most established names in personal finance — a family-owned, independent advisory firm founded by Rhonda Ferguson in 1988 and led today by her son, CEO & Principal Planner Scott Ferguson. From its Columbus office on North Frontage Road, the team manages roughly \$1.1 billion for families, business owners, professionals, and retirees across the region.

The firm's practice covers the full arc of a client's financial life: retirement and college planning, portfolio management, retirement-plan distribution, long-term care, and legacy planning for heirs. Its promise — planning that goes beyond the numbers to the family, health, and dreams behind them — is exactly the kind of message that rewards repetition in front of the right audience.

WHERE MCTV FITS

You already believe in out-of-home.

Your billboards work the highways — but a driver gets seconds. MCTV puts the same brand in front of a seated audience for 55+ minutes at a time.

Our rooms are your client list.

Clinics, dealerships, co-ops, and civic buildings — the venues where the Golden Triangle's families, professionals, and retirees already wait.

Trust is built on repetition.

A wealth-management brand seen every 15 minutes, inside the hometown places people trust, all month long.

Own the category.

Financial-services exclusivity is available — no competing advisor on any screen you buy.

One network, three growing North Mississippi markets.

WHERE THE SCREENS LIVE

Our screens sit inside the restaurants, medical clinics, salons, dealerships, pharmacies, co-ops, and civic buildings North Mississippians already spend their week in. Dwell time is measured in tens of minutes, not seconds — your spot plays to a seated, waiting audience.

Buy one market or all three: reach compounds as your footprint grows across Oxford, Tupelo, and the Golden Triangle.

WHAT SETS MCTV APART

- 01 Owner-operated and local.** The fastest-growing owner-operated indoor billboard network in North America — run from North Mississippi, not a coast.
- 02 Unskippable by design.** No remote, no ad-blocker, no scroll. Your spot can't be skipped, muted into irrelevance, or thrown away.
- 03 A captive, seated audience.** 1,500+ plays per screen every month, in rooms where people are waiting anyway.
- 04 Accountable.** Proof-of-play reporting documents play counts by screen — you see exactly where and how often your ad ran.

Three markets. One footprint.

MARKET 01

Oxford / Lafayette

44 VENUES

Our deepest footprint — game-weekend traffic, a university town's year-round service economy, and the civic buildings every resident passes through.

YOUR CREATIVE, OUR SCREENS

What we'd put on the screens for you.

Your billboard creative already works — the brand, the faces, the promise are proven on the highway. Our in-house team rebuilds it as a 30-second, full-motion spot designed for a seated audience: silent, readable, and refreshed every quarter at no extra cost.

TODAY: YOUR GOLDEN TRIANGLE BILLBOARD

The campaign your market already recognizes.

ON MCTV: THE SAME BRAND, IN MOTION

Rebuilt as a 30-second silent spot — designed to be read across the room.

A fraction of the CPM of any other local channel.

Less than half the cost of the billboards already working for you — as low as \$1.64 at full network scale.

CPM = cost per thousand impressions. The MCTV figure is a network blended average; campaigns price as low as \$1.64 CPM at full scale. Comparison figures are typical U.S. local CPM ranges by channel (industry estimates).

Start with your home market. Scale when you're ready.
