

MCTV ELITE ADVERTISING · ADVERTISING AGREEMENT & PAYMENT AUTHORIZATION

Oxford Flight 1 + Tupelo Regional Flight Board Title

Contour Airlines · Flight 1 selected · Flight 2 to be agreed separately

Order MCTV-20261002-CNTR

Issued October 2, 2026

Valid through October 9, 2026

| DEAL SUMMARY · FLIGHT 1 |                                                                                                                                                                                                                                                                                                                                                                                                   | \$4,250, one invoice · 8 weeks on air in Oxford · board title through January 17, 2027 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| CAMPAIGN                | Flight 1, fall 2026. Your :15 twice in every loop, all day, at all 40 Oxford locations on Schedule A, from the first play through <b>December 5, 2026</b> . Eight weeks on air guaranteed. Cyber Monday, November 30, is inside the window.                                                                                                                                                       |                                                                                        |
| FLIGHT BOARD            | Title sponsor of the live Tupelo Regional flight board on all five terminal screens and wherever the board runs on the Oxford screens, from the first play through <b>January 17, 2027</b> , holidays included, while Oxford is dark.                                                                                                                                                             |                                                                                        |
| EXCLUSIVITY             | Travel category exclusive. No other airline, competing airport, airport authority or destination marketing organization on the Oxford screens or in the board sponsor position during the term.                                                                                                                                                                                                   |                                                                                        |
| PRICE                   | Flight 1: <b>\$4,250, one invoice, due on receipt</b> . Covers the Oxford flight (Lafayette County, the 40 locations on Schedule A), the board title through January 17, production, and reporting. No other charges.                                                                                                                                                                             |                                                                                        |
| PLAY FLOOR              | 1,500 plays per screen in each full month on every Oxford screen, prorated for a partial month, logged by the player, with make-good. The board title is a continuous position with no play count.                                                                                                                                                                                                |                                                                                        |
| FIRST PLAY              | First play on _____ (filled in at signing; targeted October 16, 2026 for the Missouri weekend if signed by October 9).                                                                                                                                                                                                                                                                            |                                                                                        |
| CREATIVE & REPORTING    | Spot and board position designed by MCTV at no charge; Contour approves before air; ads are silent. A monthly traction report with plays and air time by location and the per-screen log, plus a vanity URL and promo code that exist nowhere but these screens.                                                                                                                                  |                                                                                        |
|                         | Flight 2 is not in this order. Contour has set aside \$3,000 for a spring flight, January 18 through March 12, 2027, on a tighter list of rooms that skew higher income (restaurants, gyms, the car dealership and the like). Its locations, dates and terms will be agreed separately in writing. Nothing runs in Oxford, and nothing is billed, from December 6, 2026 through January 17, 2027. |                                                                                        |

TERMS IN PLAIN ENGLISH

1. **What you get.** MCTV runs Contour's :15 twice in every loop at every Schedule A location for Flight 1 and holds the title sponsor position on the Tupelo Regional flight board from the first play through January 17, 2027. The spot and the board are two separate placements.

2. **Term and price.** \$4,250, one invoice due on receipt, for eight weeks on air in Oxford, first play through December 5, 2026, plus the board title through January 17, 2027. Time on air starts on the first play date above. If the first play lands after October 10, every missed day is carried as a day-for-day credit on the Oxford screens toward Contour's next MCTV order. Ends when the term ends. Does not renew on its own.

3. **Exclusivity.** While this order runs, MCTV places no other airline, competing airport, airport authority or destination marketing organization on the Oxford screens or in the board sponsor position.

4. **The flight board.** MCTV maintains the board; Contour adds MCTV to its schedule distribution so changes post the day they are published. If a terminal screen is down, moved or covered during the renovation, the title continues on the remaining screens and the board term extends day for day at no charge. Terminal creative is also subject to Tupelo Airport Authority content approval.

5. **Play floor and make-good.** If an Oxford screen falls short of its prorated floor in a month, MCTV makes up the missing plays the next month or extends that screen day for day. Days lost waiting on creative approval do not count against the floor. That is the only remedy for missed plays or downtime, and MCTV's total liability under this order is limited to what Contour has paid.

6. **Creative.** MCTV designs and produces the spot and the board position at no additional charge. Contour approves both before they air. Ads on this network are silent.

7. **Brand rights.** Contour holds the rights to anything it supplies and confirms it may use the Contour name, logos and photography in local advertising. MCTV cannot clear collegiate or other licensed marks for Contour.
8. **Locations.** Host venues are independent businesses and the list can change. If one closes or leaves the network, MCTV substitutes a location of the same kind in Oxford when one is available, and tells Contour. The traction report shows every location the spot ran.

9. **Measurement.** Plays are counted by the media player, not viewers. MCTV does not report audience impressions for the screens and makes no impression claims under this order.

10. **Invoicing.** After Contour signs, MCTV emails one QuickBooks invoice for \$4,250 to Accountspayable@flycontour.com, attention Chris Hanvy, showing the order number and Contour's PO. Nothing is invoiced by mail only. MCTV's W-9 and signed ACH letter accompany the invoice.

11. **Payment.** The invoice is due on receipt and before the first play; the first play starts once it is paid, or once Contour says a check is in the mail. A \$30 fee applies to returned or NSF transactions. Prepaid order for the full term; if ended early, time paid for is not refunded. If MCTV cannot deliver the campaign, the only remedy is a refund of what was paid, in proportion to the time on air not delivered.

12. **Fall 2027 option.** Contour may run the Oxford fall flight again for fall 2027, eight weeks on the Schedule A locations with the same rotation, floor and reporting, at \$4,250, by telling MCTV in writing by July 1, 2027. The board title is not part of that option unless both sides agree in writing. No obligation to renew.

13. **Binding.** Two pages, this page and Schedule A. Binding when countersigned by MCTV; scans, PDFs and e-signatures count as originals. The whole agreement for Flight 1; replaces the October 1 one-pager and order form, The Season and any earlier proposal. Governed by the laws of the State of Mississippi. MCTV Digital, Inc. d/b/a MCTV Elite Advertising.

PAYMENT AUTHORIZATION

Amount authorized: \$4,250.00 · Flight 1

1 · SELECTED OPTION

☒ **Flight 1 · \$4,250.00** Oxford, 40 locations, eight weeks on air, first play through December 5, 2026, plus Tupelo Regional flight board title through January 17, 2027. One invoice, due on receipt.

2 · BILLING CONTACT All invoicing by email. Details from Contour's accounts payable, October 2, 2026.

3 · HOW YOU PAY By invoice. Nothing to fill in here.

☒ **QuickBooks invoice, \$4,250.00.** Once the signed agreement is back, MCTV emails one invoice for \$4,250 to Accountspayable@flycontour.com, attention Chris Hanvy, with the order number and your PO on it. Our W-9 and signed ACH letter come with it. Pay from the invoice by ACH, check or card, due on receipt and before the first play. MCTV never asks for bank or card numbers on this form or by email.

AMOUNT AUTHORIZED

Authorization. By signing, Contour accepts this order and authorizes MCTV Elite Advertising to invoice one payment of \$4,250.00 for Flight 1 on order MCTV-20261002-CNTR, payable from the invoice by ACH, check or card. This is a single payment. Nothing recurring is authorized, and Flight 2 needs a separate order. I confirm I can sign for Contour Airlines and agree to the terms on this page and Schedule A. I will receive a countersigned copy of this agreement.

\$4,250.00

**Substitution.** Host venues are independent businesses. If one closes or leaves the network, MCTV substitutes a location of the same kind in Oxford when one is available, and tells you. Your monthly traction report shows every location your spot ran.

**Not in this order.** Flight 2 (January 18 through March 12, 2027) and its location list will be agreed separately in writing. The Tupelo venue screens, Starkville and the Golden Triangle are not part of this order. Nothing runs in Oxford, and nothing is billed, from December 6, 2026 through January 17, 2027.
